Background

Background section.

Research

Here we talk about what other projects like this we looked at.

Name of project we looked at 1

Talk about the project a bit and the differences from our project.

Name of project we looked at 2

Talk about the project a bit and the differences from our project.

Name of project we looked at 3

Talk about the project a bit and the differences from our project.

Programme and Methodology

Aims and goals of our project. Talk about what platform it will run on and why. Say how we're going to do research and testing. We want big words like "qualitative interviewing".

Collaboration

Here we talk about how we will communicate, exchange data, meeting on time. This is where we praise version control &c.
